Services

What I do?

• Visual Design

Design that is unique, functional and beautiful is at the heart of everything we create. We’re obsessed with user experience, designing with the user’s need in mind.

UI/UX Design, Mockup Design, Graphic Design, and Branding

• Web development

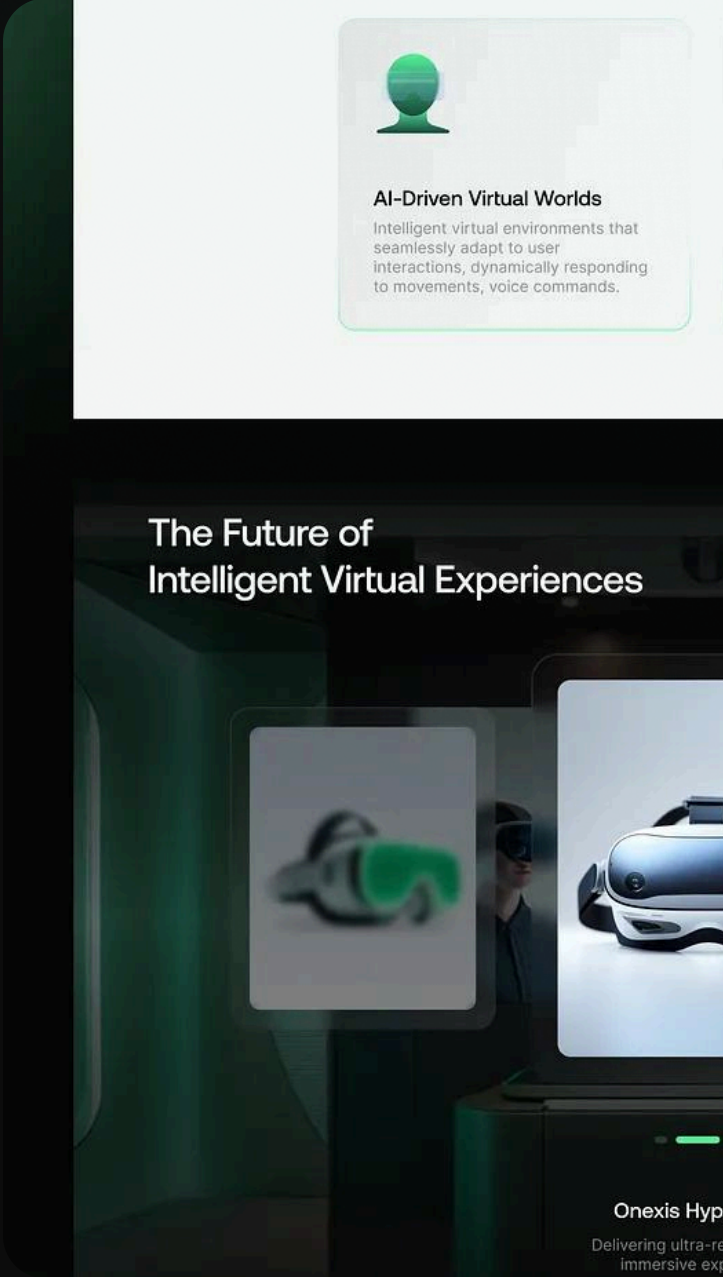

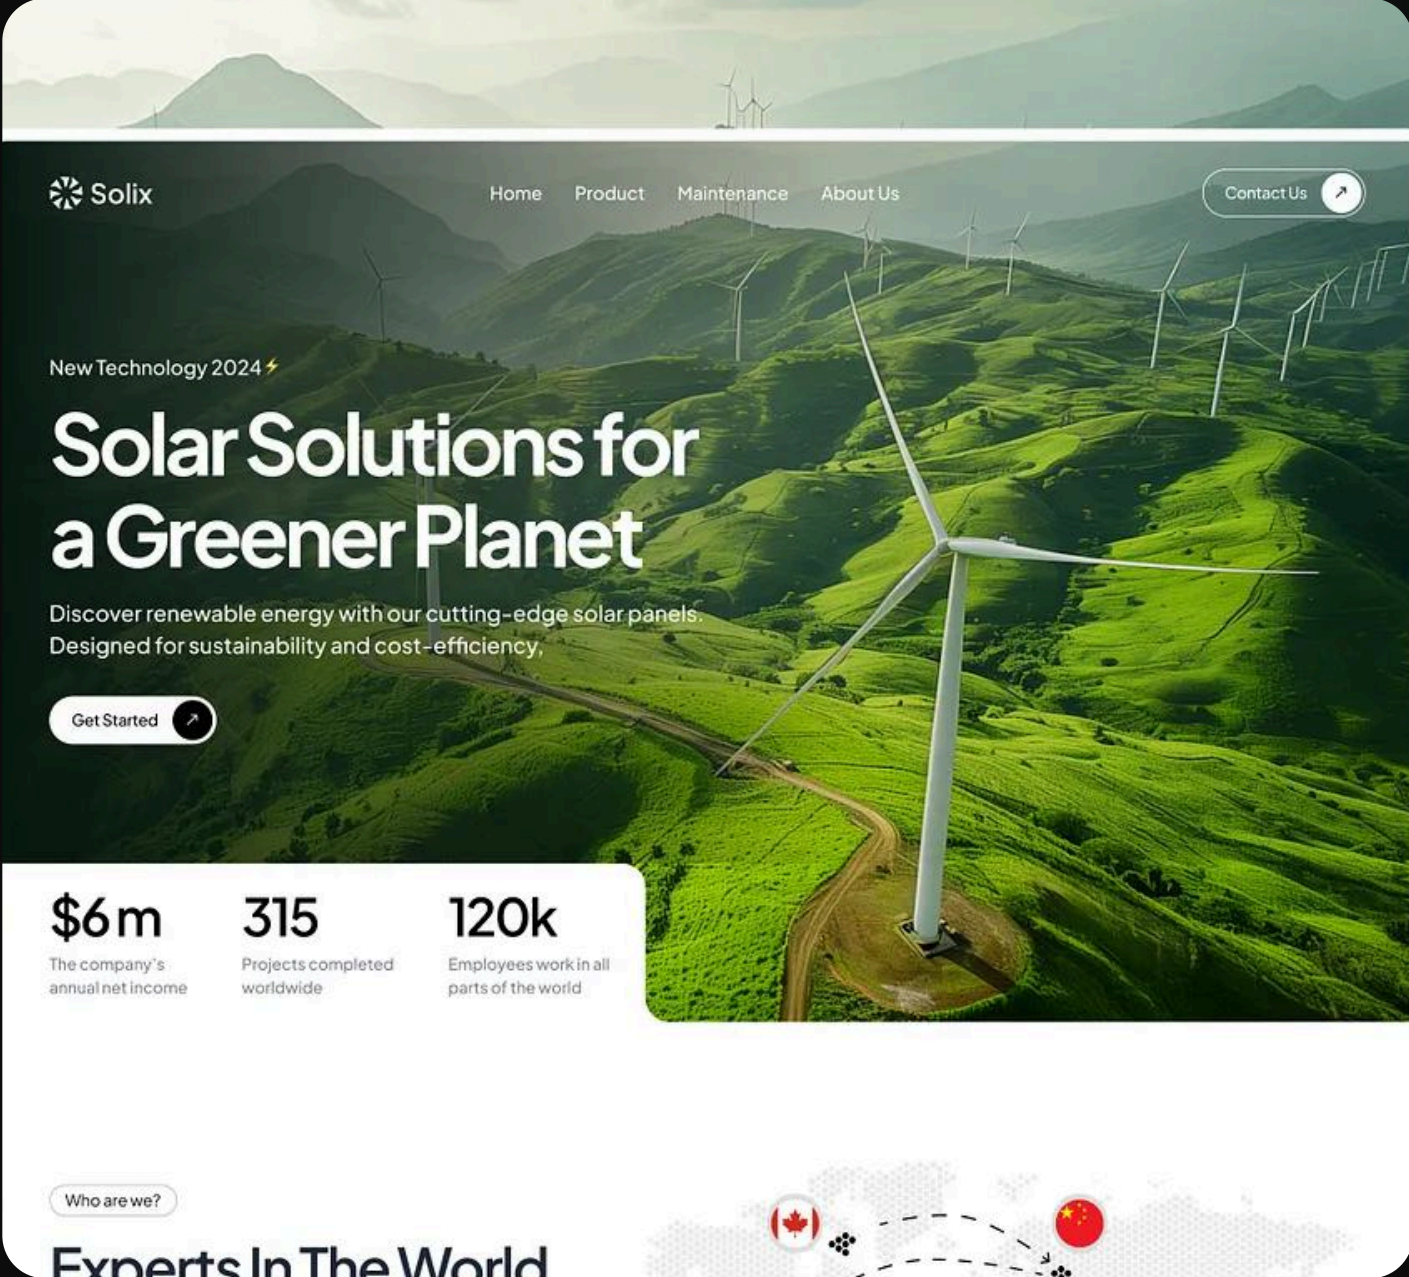

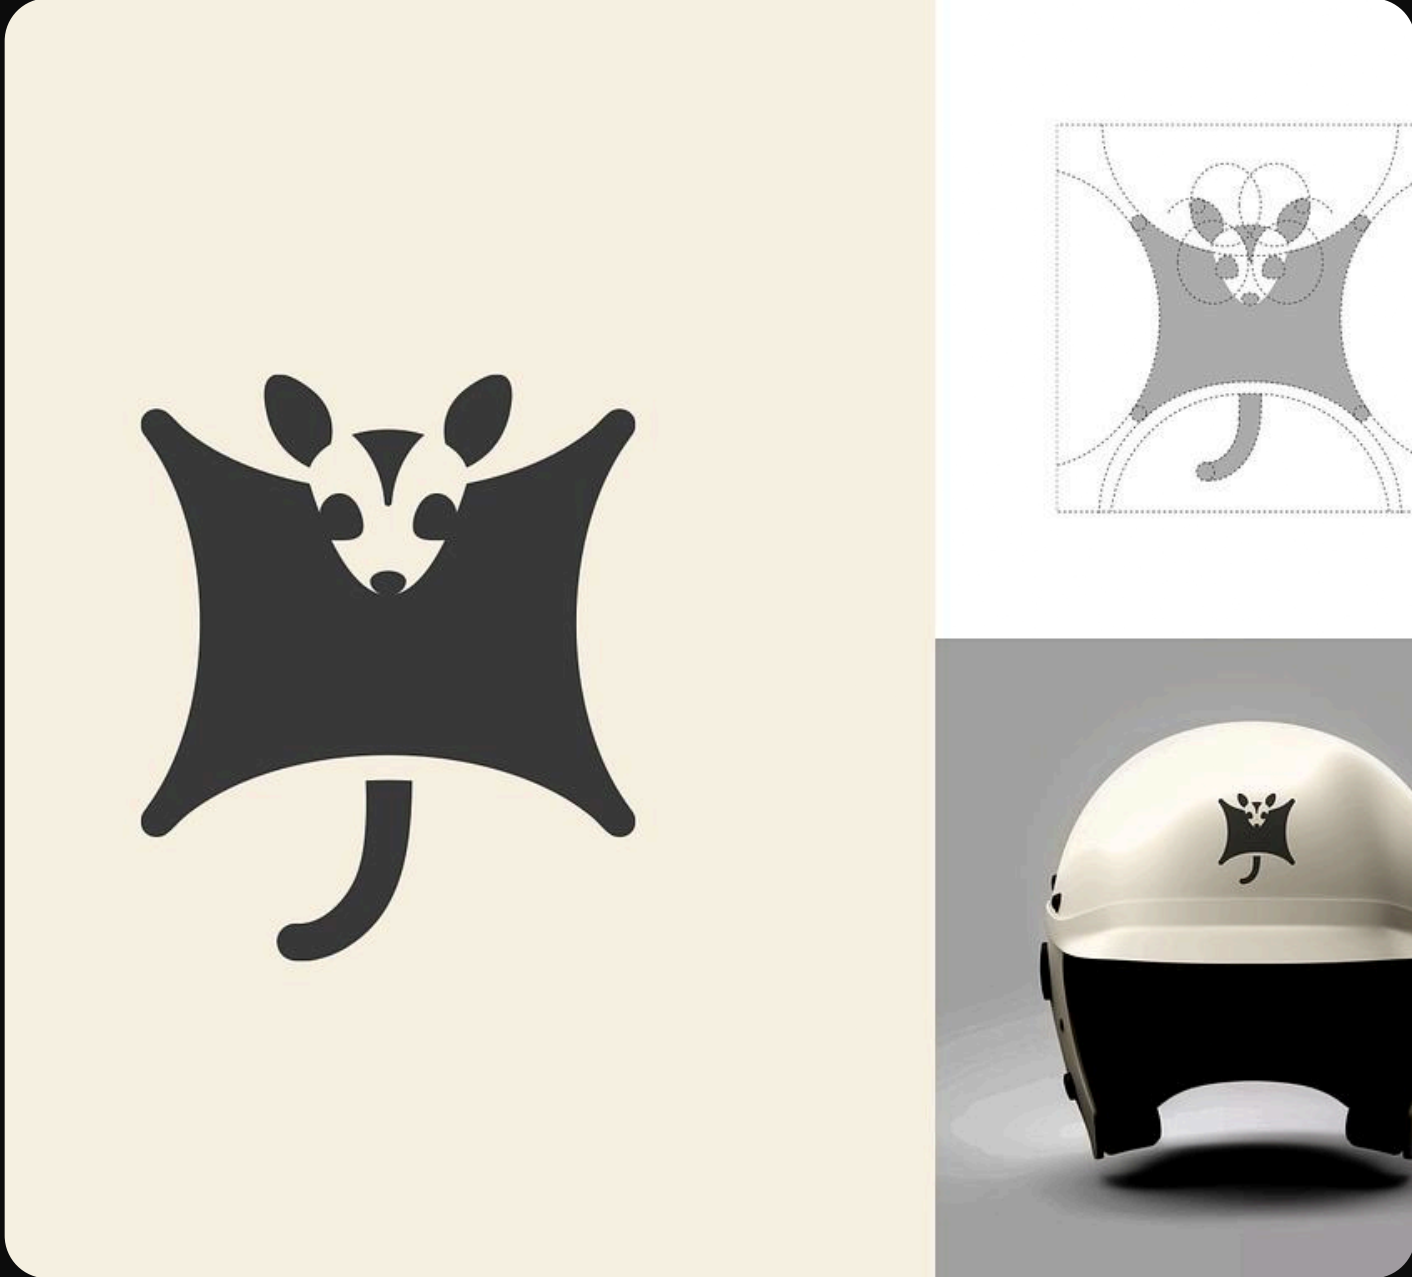

Create, learn, iterate and reiterate. We understand how to extract logic and order from chaos, it’s how we develop products that go beyond the forefront and become the next.

Framer Development, Webflow Developmet, Wordpress Development, Website Optimization
